MORE JOBLESS AS CRISIS TAKES A TURN FOR THE WORSE

The Public Works Fallacy

Communists are not opposed to the stimulation of public works during periods of economic crisis—nor at any other time. On the contrary we favor special taxes on the rich for the creation of funds with which to carry through many needed improvements in working class districts in every city. We continuously demand schools, parks, playgrounds, better sanitary facilities, etc., for the workers and their families.

But we are against the theory, widely accepted since Hoover's economic conferences last fall, that public works are a solution for unemployment. Political fakers in every city, who delight in playing with the misery of the masses in order to get votes and political office for themselves, are demigogically promising that if they are elected they will solve unemployment by stimulating public works. This kind of fakery was the main political argument of the newly elected mayor, Murphy, in Detroit. It is used indiscriminately by republican, democratic, A. F. of L. and socialist politicians in every city.

It is, however, a fallacy. This is strikingly illustrated by the experiences of Buffalo, N. Y., where some interesting figures are available.

Buffalo was one of those "progressive, far-sighted cities" which last fall heeded the call of Hoover to solve unemployment by stimulating public improvements. Buffalo was one of the hundreds of cities, counties and states that sent wires to Hoover telling how much they would immediately spend to "maintain prosperity." As a result of these hundreds of telegrams, the newspapers, you will remember, compiled a total of many billions of dollars that would "immediately" be made available to relieve the economic distress of the masses.

Now, after about a year, the Buffalo Times gives the results for Buffalo. According to the census figures there are 18,655 men unemployed in the city. The actual figures, of course, are several times greater, but we will not quarrel on that score now. In addition to the many minor improvements continuously under way, three big projects were started to relieve unemployment. They were a big sewer construction job, a new city hall, and a teachers' college. The sewer job employs 143 men; the new city hall 265; and the teachers' college 62. That is, the three projects for which well over $10,000,000 was appropriated to solve unemployment employs only 470 men, while admittedly there are 18,655 unemployed workers in the city and actually at least twice that number. The work is being done by derricks, steam shovels, tractors and various other mechanical devices, rather than by men. Speed-up and low wages is the rule. It would be interesting to receive from our readers similar figures on other cities and states.

Public works, then, as these figures show, do not even begin to meet the present situation. Despite all the optimistic chatter of Hoover and his cohorts; despite the "great public improvement program" supposedly launched last fall, there are still over 8,000,000 jobless workers. This number is still increasing, as the figures now available for August show. Public works cannot solve this unemployment problem, and neither can private, capitalist industry. Even assuming that the United States recovers from the present economic crisis great mass unemployment will continue.

Therefore, while organizing and fighting for the overthrow of the capitalist system, which breeds unemployment and mass suffering, the workers must expose this public works fallacy and organize and fight for unemployment insurance—for the Unemployment Insurance Bill as proposed by the Communist Party. Only by forcing the bosses and their government to pay a living wage, a minimum of $25 a week, to every worker to whom they are unable to provide a job, can mass suffering and misery be alleviated. Public works is a fallacy; unemployment insurance is the only solution under capitalism; the final solution—the elimination of unemployment—will only come with the defeat of capitalism and the establishment of a workers' and farmers' government.

The Communist Party is the leader of the workers' struggle for both unemployment insurance and for a socialist society. Vote Communist!

WINTER WILL BE HELL FOR THE JOBLESS

Boss Magic Cannot Hide the Ever-Worsening Economic Crisis

Business Goes On Down

Must Increase Fight For Jobless Insurance

Again the bosses are trying to dissolve the economic crisis with magic. Winter is coming, with 8,000,000 jobless facing starvation. All of the lies repeated for nearly a year by Hoover, Green, Lamont and Klein have been exploded by facts. In March Hoover said the crisis would end in 60 days. At the close of that period it became worse.

Now the whole campaign of lying about the crisis is being taken up by the entire capitalist and A. F. of L. press to hide the real extent of the misery that faces the whole workingclass this fall and winter.

Here are some of the stunts the bosses pull. In Virginia the business men dump effigies of "Business Depression," "Mrs. Pessimism," and "Miss Fortune into the sea. By this witchcraft they hope to stem the tide of the crisis. In their frenzy over the undeniable facts of a worsening slump, the bosses actually become childish in their antics to dispel the crisis. In Wall Street the clerks are forced to wear buttons reading "Business is Good." By Coueism and

JOBLESS MARCH IN NEW HAVEN

Force Board to Hear the Delegation Today

NEW HAVEN, Conn., Sept. 14.—[illegible] unemployment demonstration will be held here today at Central Green at 7 p. m. The jobless will march to the city hall to attend the session of the board of aldermen and present demands for relief and insurance.

Friday the alderben were driven into a corner by the delegation from the Sept. 1 Unemployment Day demonstration and forced to promise to receive the representatives of the unemployed on Monday evning.

William Schneiderman and Horace Bloxam appeared before the board of aldermen as representatives of the Trade Union Unity League and the Sept. 1 demonstration.

Schneiderman spoke, sharply attacking the fake measures proposed to the board, such as free employment agencies, an dpointed out that unemployment had trippled in New Haven since last year. Ten thousand jobless face starvation now.

The delegation presented the Trade Union Unity League program of unemployment insurance, free housing, no evictions for non-payment of rent by those out of work, and provision by the city of an immediate emergency fund, etc., but this presentation was constantly interrupted by the aldermen.

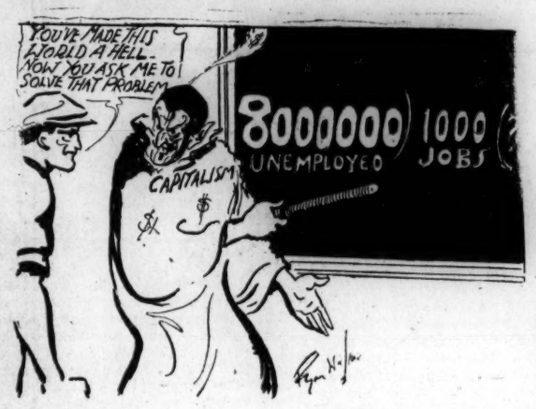
Nevertheless, the aldermen were so thoroughly exposed before the audience that they finally agreed to hear the demands of the delegation at the Monday sesion.

"Socialist" Promises to Jobless Cover Their Starvation of Jobless in Practice

Donald Takes Even Their Dole Away; S.P. Here Clubs Hungry

By WILLIAM Z. FOSTER
(Prisoner No. 52351, Hart's Island Prison; Communist Candidate for Governor of New York State.)

Just now the leaders of the "socialist" party are filling the air with talk about what they would do to relieve the unemployment if they were in power. But the time is far past when the workers in judging this party, have to rely only upon what its spokesmen say and promise. **Now we can look into the field of practice and see how the "socialists" translate their promises into action.** And when we do this in the case of unemployment, as in all other issues, vital to the working class, the record of the social-fascists stand out clearly as one of treachery and betrayal.



What Has MacDonald Done For the Unemployed?

The present great outstanding example of this is in Great Britain. About a year ago the British Labor Party, which is a socialist organization, was elected upon a program of the relief of unemployment. MacDonald and the others criticized the conservatives violently for their inability to solve the question of unemployment. Just give their party a chance, the social-fascists said, and they would take care of it all, pronto. So the working class voters, harkening to these glib promises, turned out en masse for them and enabled them to lead the government.

A Million Unemployed More!

When the British Labor Party took the leadership in the capitalist government the total of unemployed was 1,100,125, but by July 28, 1930, it had mounted to 2,011,467 and was rapidly going higher. This is an increase of 911,342 in 14 months, not taking into consideration the hundreds of thousands of part time employed.

Much of this unemployment is directly due to the speeding up of the workers through the collaboration of the Labor Party leaders and the capitalists. This tremendous growth of unemployment, under the conditions of expanding world capitalist crisis, shows that the social-fascists, like their masters, the capitalists, will not and cannot take the necessary steps to check or eliminate it.

Besides a big growth in the number of unemployed workers under the Labor Party regime, the conditions of the unemployed have also been greatly worsened. The social-fascists have systematically cut off great numbers of workers from the unemployment benefit lists, making it harder for the workers to get relief. Moreover, they are now about to slash the amount of the weekly unemployment dole. No conservative or liberal government would have dared to attack the unemployed as viciously as the labor government has done. And the social-fascists do it all in the name of "socialism."

"Labor" Breaking Records.

These betrayers of the workers have grown cynical in their smug but ill-founded assurance that the workers will not awaken to their game and repudiate them. For example, J. H. Thomas, a $50,000 a year labor minister, says: "Do not be keen on this humbug about breaking records. I broke records in the number of unemployed." And meanwhile, as the New York Times says, while at least 10,000,000 of British workers and their

FASCISTS SHOOT AT WORKERS IN GERMAN VOTING

Heavy Workers' Vote Is Cast in Berlin

BULLETIN.

The following returns were reported by the capitalist press, as we go to press:

Out of 33,000,000 votes cast, the "socialists received 6,136,000; Fascists, 4,523 000; Communist Party, 3,531,000; Catholic Party, 3,324,000; Nationalists, 1,657,000; Volkspartei, 1,216,000; Economist Party, 1,027,000; Constitutionalists, 984,000; Schleswig Agrarians, 939,000; Bavarian Catholics, 925,000; Christian Socialists, 672,000; Agrarian Conservatives, 250,000.

At 2 o'clock, German time, the Communists were approximately 62,000 votes ahead of the "Socialists" in the city of Berlin.

* * *

BERLIN, Sept. 14.—Yesterday evening truckloads of fascists halted before Liebknecht House, the Communist Party headquarters, and opened fire at the lighted windows. An accompanying police car directed a searchlight on the house, facilitating the fascist attack.

Police fired against workers in the square in front of the House. In a few seconds over one hundred shots were fired. Arthur Hahnert plumber, was killed by a stomach wound. He leaves a wife and two children.

The fascists retired under police cover. The police cleared the square and adjacent streets, clubbing and shooting. Many workers were wounded. Police Captain Anlauf, member of the "socialist" party, directed the action.

Collisions also took place elsewhere. In Charlottenburg fascists fired against a house displaying Communist placards. A truckload of Communists were attacked by fascist in Innsbruecker Platz. Police arrived and arrested 75 workers.

Guertelstrasse police raided a Communist local, arresting many workers. In the suburb of Britz fascists attacked some workers. Police arrived and fired thirty rounds. Four arrests were made.

In Halensee fascists stormed the Communist local demolishing the interior. Many were injured. In Oppeln a serious collision took place betwen workers and police. Two were seriously injured as the result of police fire.

During the day many minor collisions occurred. At midday the police had arrested several hundred. A large vote was expected in the workers' quarters where Communist propaganda is dominant. Communist placards and red bunting is displayed everywhere. Motorcycles, etc., are touring the streets making communist propaganda.

A final Communist mass rally was held last night with intense enthusiasm

ARREST 4 MORE AT BELLINGHAM

Bosses Continue Drive Against Workers

BELLINGHAM, Wash., ept. 14.—Four workers were arrested here yesterday on the grounds of distributing leaflets without a permit. Of the four, two were released after questioning and warning. One of the four was G. Canalle, already facing a city vagrancy charge and out on bail, and th eother was Jim Brown, a fighting young worker, sixteen-years-old. Those held are Charles Bronsen, Young Communist League member and Martin Olsen, member of the Trade Union Unity League.

A street mass meeting was held last night protesting against these latest arrests which are obviously intended to drive the Communist Party and the Trade Union Unity League out o fthe city of Bellingham, whose government is controlled by the Blodell-Donovan Lumber Co. The International Labor Defense, under whose auspices the meeting was held, pointed out the necessity of mass defense work of these militant workers were to be protected from the capitalist courts, police and their branch of justice.

This is the latest of a series of arrests that have been taking place in the City of Bellingham. On August 29, three workers were arrested and held incommunicado for two days. On August 30, two representatives of the International Labor Defense were also imrpi oned when they came to find out about the arrested workers and the police threatened to arrests anybody coming to find out about these arrested workers.

ANTHRACITE ANTI TERROR CONFER.

Police Want Money For Meetings

SCRANTON, Pa., Sept. 14.—One of the issues that will be discussed at the Mass Anti-Terror Conference which will take place Sunday, September 28, at 10:30 a. m., at Union Hall, 12 East Market St., Kilkes-Barre, Pa. will be the fight for the right of workers' organizations to hold meetings with out police interference. This conference will lay plans for the broad mobilization of the working-class organizations here in the Anthracite against the payment of the police for "protection" and for the privilege of even holding small indoor meetings.

When the committee of the International Labor Defense went to the Commissioner of Safety of Scranton to ask for a permit to hold an indoor meeting for Anna Burlak, one of the six workers now facing the electric chair in Atlanta, Ga. They were informed that they would have to pay a minimum of $10 for two police to watch the meeting. And when they refused to pay for the police, four police was stationed at the entrance to the hall and refused to allow any of the workers to enter.

Only the mobilization of every workingclass organization and the workingclass as a whole in the anthracite will make it possible to hold our meetings without paying the police.

Every workingclass organization is urged to send delegates to the Mass Anti-Terror Conference, September 28.

SALT LAKE CITY POLICE PLAN TO ARREST CLINE

Frame Him Up Under the Mann Act

SALT LAKE CITY, Utah, Sept. 14.—Chief of Police Burbridge has announced that Paul Cline, the Daily Worker representative will be arrested as soon as he sets foot in this city. Pressure has already been brought on a hall owner to get him to cancel the hall secured for Cline's scheduled meetinf.

The police indicate they have a crude frame-up by announcing that Cline is "wanted in another state for violation of the Mann Act." On his previous trip to Salt Lake City, Cline was also arrested and charges were smashed.

A substitute hall has been secured for Cline's meeting Tuesday, and the committee in charge ig going ahead with the preparatory work.

Organize and strike against wage-cuts!

United Textile Workers Convention in Disorder When Graft is Exposed

Find Batty, New Bedford Strike Breaker and U.T.W. Chief, Sold to Manufacturer Butler

NEW YORK.—The United Textile Workers national convention broke up Saturday in disorder over charges that the New Bedford and Fall River delegation has shared in the $500,000 slush fund accumulated to elect to the U. S. Senate William M. Butler, big mill owner against whom the New Bedford strike was fought and republican party national campaign manager up to last year.

The proposal to have the delegates from the U.T.W. to the A.F.L. national convention which will be held in Boston, Oct. 6, work for one of Butler's fake "48-hour" measures, was brought in by Herbert Severs and William F. G. Batty. Batty is the faker who headed the independent "Textile Operatives" union which conducted strike breaking activities during the New Bedford strike, and which joined the U.T.W. during the course of the strike. Batty cooperated completely with the lock-out expert, U. S. Commissioner Wood, and Wood relates with glee how Batty went to the picket line and personally slugged Fred Beal, a strike leader.

Officials Save Batty.

A delegate named Shay of Salem, Mass., charged openly on the floor of the convention that "the delegation bringing in this resolution is part and parcel of the Butler campaign." President McMahon of the U.T.W., rushed to the defense of Batty and the graft with a parliamentary trick, and ruled Shay out of order.

The net result of considerable dis-

(Continued On Page 3.)

RAID PORTLAND WORKERS CENTER ARREST WORKERS

Bosses Fear Crowding the Workers' Movement

PORTLAND, Ore.—On Sept. 9, the Workers Center at 312 Worcester Bldg., Portland, Oregon, was raided by police and workers coming to the Communist Party meeting and several who were reading in the hall, were arrested. Sixteen are held; 8 for deportation and 8 on vagrancy charges. The following are held for investigation by the immigration authorities: Tom Evanoff, Dan Stoeff, George Johnson, Ed Levitt, Pete Nales, Engelbrecht Nilson, Bill Woral, Claus Strav. Others held are: Mike Genceff, Ellis Bjorkman, John Moore, Rubin Snadstrom, Arthur Brown, John Torkko, James Howell, Jack Henderson. The arrested are among the most active workers of the Communist Party and of the I. L. D.

These arrests are part and parcel of the bosses' attacks against the foreign born workers, and also part of the reign of terror against the native born workers.

Melt the Molasses

The red-star, 8-page Election Campaign Edition of the Daily Worker will race over the United States Sept. 20.

Some districts of the Party, not yours, of course, are moving like molasses in December in sending in material and orders.

Look at the calendar! A few hours left.

To try to mobilize the masses of workers, enraged at unemployment and speed-up, behind the Communist platform without using this specially designed edition is like trying to plow with a broom.

How can any district maintain its standing if it scribbles zero opposite its name in the pack page report of this edition?

Individuals, units, sections districts rush orders; $8 per thousand; small orders a cent a copy. No papers without cash.

FAKE INJUNCTION FIGHT

Green Best Ally of Injunction Bosses

PHILADELPHIA. The A. F. of L. "anti-injunction" meeting here started with a prayer and wound up with the Star Spangled Banner. President Green spoke about injunctions, stating that they will will make slaves of us. Of course we are not slaves now, not in Mr. Green's mind. Green said that the injunctions destroy "free speech, free press and all other constitutional rights."

U. S. Senator Copeland also had something to say on the subject: "either industry will reorganize itself or we are coming to the five-day week and six-hour day."

Let us see what these fine rosy speeches amount to. The comrades of the Trade Union Unity League turned out to distribute leaflets in front of the gate and what happened? One of our comrades was beaten up by the A. F. of L. gangsters, despite the protest of many workers present. The comrades were chased by the cops and followed by squads of gangsters, who piled in automobiles, chasing the workers with the purpose of beating them up. This, as well as other hypocritical statements, can bee plainly shown up by the incident I have mentioned. These racketeers (Green, Woll, Lewis, Hirshzerg, Phillips and others of that ilk) are deadly opposed to the right of the worker to express himself; they are the worst enemies of the working class.

DEMAND SERIO RELEASE

Miners Union Wires Pres. Hoover

Aroused to action against the threatened deportation of Guido Serio and Rade Radecovitch, the Mine, Oil, and Smelter Workers' Industrial Union, responding to the call of the International Labor Defense for cooperation, is now throwing its forces actively into the fight to save these workers' lives.

The National Office of the union has sent the following telegram to President Hoover from Pittsburgh:

Mine, Oil and Smelter Workers' Industrial Union, representing hundred thousand miners, most vigorously protests against deportation of Serio and Radecovitch to fascist Italy and fascist Jugoslavia respectively, stop. We demand their unconditional release. Frank Borich, Secretary

Joining the Serio - Radecovitch struggle, the Italian Labor Institute of Philadelphia is arranging a mass protest meeting to be held on Sunday, September 28, at 1208 Tasker Street.

Guido Serio was an active organizer among the workers in the building trades and it is as a result of his militant leadership that he now faces death in fascist Italy. Unless the workers of this country come to his aid with a volume of protest that forces his release, his life will be claimed by the Mussolini government that already has on its black record the death and torture of thousands of workers.

VOTE COMMUNIST!

"SOCIALISTS" OFFER MILWAUKEE WORKERS WATER AND HOT AIR

Communist Party Mobilizing Workers for Unemployment Insurance

By J. LOKUS.

MILWAUKEE, Wis.—Today in this "socialist" city while walking the streets where the workers live one can see how the capitalist watch dogs on every corner are lying and betraying the workers, so that they may be able to secure more votes for themselves, and secure themselves with good city jobs with plenty of graft.

One Saturday while collecting signatures for the Communist candidates I saw a group of workers listening to a street corner meeting. They were "socialist" speakers. I listened to their heavenly praise of the socialist administration in the city of Milwaukee. Among other things one speaker said, "You know that in no other city where the administration is either republican or democratic there is no place like ours. For instance, in no other city is the water so cheap as in Milwaukee, or the taxes so low—some people do not have to pay any at all."

Here is what the social fascists of Milwaukee rejoice at! It does not bother them that thousands of workers' families have not even a crust of bread in the house! Thousands of workers' children go barefooted and naked, and when it gets cold not one of them will be able to go to school, because their parents are thrown out of the factories into the streets. After working years in these factories today they have not a penny to buy bread with for their children; and here the social fascists try to gladden the hearts of the workers with their cheap water, and hot air.

As to taxes: This is a lie. If the taxes are cheaper it is only for the business men and bosses. If a worker is lucky enough to have a little shack, his taxes are growing higher every year.

Before concluding he asked if there were any questions. He thought that the workers would ask about the republican and democratic parties, but from the crowd a worker asks this question: "You say that there is great unemployment and miserable conditions, etc., but you did not tell us how the socialist party intends to help these unemployed. The Communist Party has proposed the Unemployment Social Insurance Bill for all workers unemployed, disabled or sick. Another question: "Our bosses in Washington are preparing laws against the foreign born workers, such as registration, finger printing, etc. What do you socialists intend to do on this question?" Here the speaker in order to answer, began to evade the questions, saying: "Our Victor Berger, for a long time has already presented such bills in Washington." But seeing that the workers were interested in this question, then our wise "socialist" in order to get out of this predicament, knowing that the majority of his listeners were religious, squirmed here and there and then starts up with god, raising his hands up, and says: "God created everything necessary to live, wind, air, sun, water, etc., but the republicans and democrats do not give this to the workers, but we socialists believe in the socialism that god created for every one of us."

But from the crowd a worker says: "On the 6th of March when the unemployed workers numbering 25,000 came to the City Hall and demanded work or wages, Mayor Hoan sent out the police and thugs to club and beat the men, women, and children. And then he complimented the Milwaukee socialist organ, the Milwaukee Leader, and then he praised the police for carrying out his orders in an excellent manner."

No policemen were present during all the time that the socialists were speaking. But as soon as they ended the meeting, the workers who had asked the questions began to talk to the workers who still believed the socialist betrayers, and suddenly several policemen began to disperse the workers, yelling out, "Break it up"! "No Red meetings here"! and dispersed the workers.

The Communist Party of Milwaukee is actually mobilizing the workers, judging from the mass demonstrations which were held under the leadership of the Communist Party on March 6, May 1st, August 1st and September 1st. Also the numerous mass meetings and open air meetings, and shop gate meetings which are held daily throughout the city. Another fact is that nine of our most militant fighters and leaders of the March 6th demonstrations are now serving terms in the house of correction. And today, when the bosses and their tools, the police and social-fascists, arrest the workers for the distribution of literature, and arrests at meetings, etc., the Communist Party continues its energetic work by holding shop gate meetings, open air, where the speakers of the Communist Party explain to the workers the reasons for the great unemployment and show how the rotten capitalist system is decaying; exposing role of social-fascism and organizing the workers for struggle, to overthrow the rule of the "59" such as Morgans, Mellons, etc., and to establish a workers' and farmers' government.

THE ADVENTURES OF BILL WORKER — Bill in Action — By RYAN WALKER

SCAB UNION PICKETS SHOP WHERE FWIU WON

NEW YORK.—The Jewish "Day" and the yellow socialist "Forward" are carrying articles boosting Saperstein's scab bakery on Burke and Holland Aves., Bronx.

All the workers in this shop are on strike and have joined the Food Workers' Industrial Union. Scabs are supplied by Local 507 of the Bakery and Confectionary Workers' International Union of America (A.F.L.). The workers in this shop struck against the 16-hour day which the A.F.L. imposed on them.

On this same street the F.W.I.U. has established union conditions in a shop at Burke Ave. and White Plains Rd. There is no strike there, and the workers have won the eight-hour day and sanitary conditions, as well as the union rate of pay.

This shop the A.F.L. pickets—in order to throw more business to Saperstein's, which has lost about 90 per cent of its trade. The A.F.L. makes no demands for workers, it only sells its label. Sentiment of the entire neighborhood is for the Saperstein strikers and against the fake picketing of the ship where the F.W.I.U. has control.

Demand the release of Foster, Minor, Amter and Raymond, in prison for fighting for unemployment insurance.

ASKS FUNDS FOR C. P. CAMPAIGN

District Two Calls on Workers to Help

The Communist campaign in New York is getting into full swing.

Numerous campaign meetings are held at factory gates, at the unemployment bureaus, in the needle market, during noon time, and in all working class districts in the evenings. In New York State the Red Campaign is beginning to make itself felt. Meetings are held, workers are visited in their homes. Richard B. Moore, Communist candidate for attorney-general of New York State, is completing his tour. J. Louis Engdahl is starting out on his state tour in a few days. Other candidates heading the state ticket will visit the various workers centers of New York State.

But—we must have funds immediately. We cannot develop the campaign as we should have for lack of funds.

The Communist Party is relying on the contributions that you will collect among other workers in shops and factories, in your organization, in the workers' homes.

Supply the ammunition. The bourgeois class is supporting the republican, democratic and "socialist" party. Support your party, the Communist Party. Support your campaign, the Communist campaign! Send contributions to the District Office, 26 Union Square.

Show Up Tammany Fake Free Employment Agency as Means to Effect Drastic Wage Cuts

Rybicki Sends Out Scabs; One Worker Gets a Job for $21; Another Who Got $40 Is Fired

NEW YORK.—The real meaning of the "cooperation" between the bosses and the Tammany Bureau was explained yesterday at a Communist demonstration in front of the Tammany fake unemployment agency.

The demonstration which was addressed by members of the Downtown Unemployed Workers' Council and candidates of the Communist Party in the coming elections heard the story of a shoe worker of the Refined Shoe Company, 330 Melrose Ave., Brooklyn, who was getting $40 a week and is now replaced by one sent down by the Tammany Bureau at a wage of $21 a week and replacing him with one who is now getting nearly a half of that, is one of those firms so much praised by Mr. Rybicki, head of the Tammany Bureau, for their kind cooperation in helping "solve" the unemployment problem. Through this "cooperation" between the Tammany Bureau and the bosses, the result is a new wave of merciless wage cuts, while the number of unemployed is not lessened, since these workers sent over by the Tammany Bureau are replacing workers who are now out on the streets.

Harriet Silverman, Communist candidate in the Sixth Assembly District, Manhattan, in speaking before the large crowd of unemployed workers in front of the Tammany agency, has pointed out the fake methods employed by the three capitalist parties in order to put their candidates through in the coming elections by fooling the workers. The Unemployed Council of the Trade Union Unity League which is organizing these and other demonstrations every day is calling a conference of all unemployed workers in Greater New York on Sept. 28 for a mobilization of all jobless around the Communist ticket and the Communist demands for unemployment insurance and immediate unemployed relief.

BOOT AND SHOE MEETING REVOLTS

200 Score Scab Tricks; Capture Platform

NEW YORK.—The scabby Boot and Shoe Workers' Union of the A. F. of L. was repudiated at its own meeting by over 200 workers in the trade who assembled there Thursday. The meeting was held in Lorraine Hall, Brooklyn. The chairman launched it off with an attack on the Independent Shoe Workers' Union, which has earned a lasting place in the hearts of the workers by its courageous struggle for better conditions and against the lockout last year.

The speakers added to the bad impression. Woltz, a candidate on the socialist ticket, boasted of the amounts of money he made in the insurance business. An Italian sosial fascist from Il Nuova Mundo spoke and so did a faker from the International Jewelry Workers.

Ivanoff, of the Independent Shoe Workers Union, demanded the floor. All the B. & S. W. U. gangsters jumped up and menaced him and the most of the workers there jumped up to protect him. The chairman had to give him the floor, but as Ivanoff outlined the policies of the struggle, or shop organization, of raising the working conditions, of fighting wage-cuts and organizing the unemployed, which the I.S.W.U. advocated, and as he described the rotten conditions in the unorganized shops, with an average wage of $18 or so for a long work week, the chairman kept pushing him.

The workers demanded that Ivanoff be allowed to speak, and the B. & S. W. U. gang arbitrarily adjourned the meeting and left.

The workers seized the platform and speakers continued their propaganda for a real union. The gang had the lights turned out and the workers went downstairs and continued the meeting.

SECOND BAZAAR CONF. REPORTS BIG PROGRESS

The second Communist Press Bazaar conference held last Wednesday night at the Workers Center, was an example of working class solidarity and support for the Communist Press. Most of the delegates were on hand with encouraging reports of their activities since the first conference.

Comrade Konigsberg of the Industrial Cloak Makers' Union was chairman, with Comrade Leiserowitch as secretary.

Comrade Siegel of the Bazaar Committee pointed out that the bazaar activities have not yet sufficiently developed among the masses. Comrade Siegel reported that forty booths have already been arranged for with organizations. The Bazaar Magazine has obtained seventeen pages of advertisements and greetings to the sum of $1700. However, a great deal of work yet remains to be done. Honor roll lists must be taken out advertisements and greetings secured for the bazaar magazine at once as same will have to go to press not later than Sept. 22.

Many delegates reported on activities in their organizations in support of the bazaar.

GIANT OIL MERGER PLANNED

WASHINGTON, D. C.—One of the biggest mergers in the history of the petroleum industry is now supposed to be planned. The total assets involved in the rumored consolidation of the Standard Oil Company of New Jersey with the Standard Oil Company of California amount to about $1,700,000,000!

Vote Communist!

IWW CALL COP; WORKER TAKES HIS CLUB AWAY

NEW YORK.—"I took the cop's club away when he tried to hit me on the head with it," said a worker in court yesterday. The cop, confident that workers were made to be clubbed, admitted that this version was true, and the judge was sufficiently embarrassed not to carry through the usual railroading for "assaulting a policeman." He gave the man one day on top of the three he had already served.

This worker was arrested at a Communist meeting at University Place and 14th St., where Workers' Ex-Servicemen were speakers. The I. W. W. had got a police permit for the same corner and came down after the meeting had been going on a long time with a well-known faker named Dalton, a man utterly without principles, who speaks for any organization that will pay him. Dalton wanted to speak and the I. W. W. called the police to win the corner.

A policeman came and tried to pull Harrison of the Ex-Servicemen's League off the platform, the crowd yelled "Let him speak," and the Wobblies, whose meeting was now completely deserted, started to mill around in the crowd.

The cop began to wield his club, against Communists, not Wobs, and the worker who was tried yesterday took the club away. The cop then drew his gun, planted it in the worker's stomach, and, while everybody expected another Katovis murder, arrested him. Workers jerked the cop's gun away from the man's stomach.

NABISCO WORKERS EAGER FOR UNION'S MESSAGE

NEW YORK.—Masses of workers in the National Biscuit Co. gathered around Food Workers' Industrial Union speakers yesterday at the regular Friday noonday meeting there and approved especially the speech of June Kroll on the need of organizing women workers. Paul Vince and William Beale spoke on conditions in the factory, which are very bad. The speakers emphasized the building of shop committees and support for the $100,000 "Organize and Strike Fund" of the T. U. U. L.

More arrests yesterday at the strike picket lines in the Bronx brings the total to almost 40 within three days. Rappaport, organizer of the Bronx section, and Harry Davidson were arrested at a Westchester Ave. strike, and charges are being pressed against them by the reactionary "unions" which get the injunctions and provide the scabs for the bosses. They were badly beaten up by detectives and are on $500 bail.

Of 12 cases in court yesterday, five were dismissed and seven were held on $500 bail for trial Sept. 18.

The meeting of the Shop Delegates Council was postponed until Wednesday, Sept. 17, at 8:30 p. m. sharp, at the union headquarters, 16 West 21st St. All members are urged to be present.

THOUSANDS IN YOUTH DAY MEET

Must Organize All Young Factory Workers

Several thousand enthusiastic young workers and a large number of adult class comrades crowded the Central Opera House last night in the mass demonstration that formed the final climax of International Youth Week in New York.

The mass of youthful class fighters, with the Young Pioneers in their beaming uniforms in their midst, burst repeatedly into singing of revolutionary songs, interrupted by voiced slogans and cheering.

Max Bedacht, speaking for the Central Committee of the Communist Party, pointed out the growing weight of the young workers in American industry, their consequent importance in the class struggle and the necessity for special efforts to organize them into the Young Communist League and the youth sections of the revolutionary unions.

Organize and strike against wage-cuts!

Bakery Bosses Hire Thugs to Disturb Food Union Meeting

NEW YORK.—At a meeting held at Burke and Holland Aves., the Bronx, yesterday, to protest against the owners of a bakery, Saperstein and Biberman, whose store is being picketed by the Food Workers' Industrial Union of the Trade Union Unity League, the speakers and audience were bombarded by a barage of tomatoes and eggs hurled by several boys, evidently employed for the purpose by Saperstein and Biberman.

A meeting that was being held a block away by A F. of L. fakers and scabs was deserted as soon as the food workers opened their meeting.

The crowd vociferously expressed their sympathy with the Food Workers' Union in its struggle with Saperstein and Biberman, who worked their men 14 and 16 hours a day, although their A. F. of L. contract calls for an eight-hour day. The men who went on strike against Saperstein and Biberman, all of them members of the A. F. of L., have now joined the Food Workers' Industrial Union.

ILD PLANS MANY ELLA MAY MEETS

Bessemer City Meet at Charlotte, S. C.

NEW YORK, Sept. 12.—Because the terror in Bessemer City, home of Ella May, is so great that protest meetings expose workers to police and mob brutality and the danger of death, the Ella May Memorial meeting scheduled for Bessemer City will be held instead at Charlotte, N. C., according to dispatches from the Southern District organizer of the International Labor Defense received at the national office today.

3,000 Workers Expected.

About three thousand workers are expected to attend the Charlotte meeting at which the monument for the grave of Ella May, built and contributed by the Stone Cutters' Union of West Concord, N. H., will be unveiled.

The mass meeting, which is part of the International Labor Defense September-November Class War Prisoners' Defense and Liberation Drive, will be held in Charlotte at 2 p. m. on Sunday, Sept. 14, at 34th St. and North Caldwell Ave.

Other meetings will be held in Greenville, South Carolina and Richmond, Virginia, on the same day, organized by the Southern District International Labor Defense.

Strike against wage-cuts; demand social insurance!

BRITISH INDIAN AGENTS NAMED FOR CONFERENCE

LONDON, England, Sept. 12.—The official list of British psychofants in India who are to attend the "Round Table Conference," Oct. 20, has been announced. They include ten Indian princes, 22 Hindus, 15 Moslems, 2 Sikhs, one Parsee, one Buddhist and one Christian. In the list are the government emissaries to Gandhi, Sir Te j Bahadur and M. R. Jayakah, and a varied assortment of government officials and capitalists. Two women are included, one of whom is wife of the chief minister of Madras. The names of the British delegates have not been announced.

None of the Gandhi leaders are invited, the government following consistently the policy of not exposing the fact that they are misleaders of the Indian masses.

Read These Marxian Classics During Summer
issued by
INTERNATIONAL PUBLISHERS
ONE OF THESE BOOKS IS GIVEN FREE WITH ONE YEARLY SUBSCRIPTION AT $6.00
V. I. LENIN—**The Fight for a Program, Party Organization and Tactics (1903-1904).** Lenin's most significant writings dealing with the theories and policies of the Narodniks, Economists and Menshevika. This book is particularly valuable to Party members and militant workers in the United Sates at the present time. $1.25
G. V. PLEKHANOV—**Fundamental Problems of Marxism.** The father of Russian Marxism and one of the most brilliant of Marxist publicists presents here a philosophic and historical analysis of scientific Socialism. The book has become one of the popular Marxist classics. $1.50
V. I. LENIN—**The Bolshevik Party in Action (1904-1914).** In these important excerpts from "The Collected Works of V. I. Lenin," there are presented the essential problems of Russian Socialism during the revolutionary time of 1905-1906 and the years of reaction that followed. Together with "The Fight for a Program" it gives a complete picture of Lenin's leadership over a period of 20 years. $1.50
THIS BOOK IS GIVEN FREE WITH TWO YEARLY SUBSCRIPTIONS OR SENT WITH ONE YEARLY SUBSCRIPTION AND $1.00
JOSEPH STALIN—**Leninism.** This is probably the most important single Leninist work. Here the Communist leader, disciple and for many years co-worker of Lenin, deals with the fundamental problems and theories that influenced the Russian Revolution and from the basis of the present Soviet state. $2.50

LETTERS FROM THE SHOPS

GORMAN, U.T.W. FAKER HAS LONG LIST OF BETRAYALS OF WORKERS

Rank and File U.T.W. Members Must Be Won for the National Textile Workers Union

New York.

Daily Worker:

At the second day's session of the A. F. of L. United Textile Workers' Union at the Great Northern Hotel, Mr. Gorman, the first vice president, said that the time has come for organization.

Well, Mr. Gorman, I know you very well, and heard you saying the same thing in 1928 at Pawtucket, R. I. Where after Local 799 after a seven months' battle you were the one to put a monkey wrench in the strike and succeeded in getting a fake statement in favor of your skilled machinists and the unskilled workers, beginning the first days of the settlement kicked out by the company and why? You know its policy, that all that workers who are in the front in strike time must be kicked out after the strike is sold out.

Known Agent of Bosses.

And why are you angry about the South so much, when you know that you are the one who helped the bosses to move to the South from Pawtucket, R. I., and you were the one who supplied them with all the skilled workers that the bosses needed, also securing a good number of experienced weavers to go and teach the learners at the rate of $45 a week to Cleveland, Ohio, mills.

Fooled Women Workers.

And you are the one who put the dirty trick in the 1929 Pawtucket Valley election campaign that by fooling the women voters in order to secure them a job. The bill passed and the young girls and old women began to work 12 hours a night in your locality. And you are the one who supported the cockroach bosses at the time of the Paterson strike to come to your town, where there is no higher wages and shorter hours. Then you began to organize a settleement with the bosses in 1929—men and women 5-54-60 hours day and night and 5 cents a yard and a charter of the U. T. W.

You are the one who threw a monkey wrench in the Wilkes-Barre strike by letting the day weavers scab on the night weavers and the night loom fixers never walked out because they belonged to a skilled craft, but they are a bunch of shoemakers, anyhow.

Join N. T. W. U. for Fight.

And there are many more betrayals that you pulled off. And a man like you dare have nerve to be the spokesman for the millions of starving textile workers!

And what kind of a union are you selling when a labor traitor like you is the vice-president?

We, the mill slaves, don't need your dope any more, and you know it very well. We belong to the only union where there are no fakers like you, workers from the shops are the vice-presidents and everything, and American, foreign-born, Negro and white workers, men and womeen, have the same equal democracy. Long live the National Textile Workers' Union. Down with the U. T. W. fakers!

—J. GREGORY.

WINTER HELL FOR JOBLESS

Must Speed Fight For Jobless Insurance

(Continued From Page 1.)

Christian Science, with a dash of lurid witchcraft, the boss medecine men hope to expel the crisis devils from the body of capitalism. Their lies, their extortions, their acting and incantations will have no more effect on the crisis than the beating of tom-toms has in curing disease.

Why They Do It.

The "50" rich rulers of the country, who are back of it all, know this. But they also know that the workers are not going to starve to death quietly or continue to swallow Green's advice that they accept wage cuts, speed-up and worsened conditions. Capitalism is facing the bitterest winter in its history in the United States. The bosses demand of their preacher, their press, their conomists, their fascist union leaders, "For God's sake, do anything, but prevent workers from acting in their own interests!"

Facts About the Crisis.

Fundamentally the crisis, which is is over one year old, is getting worse. The bosses are counting on a slight seasonal upturn, but even this which occurs in the worst crisis years, this time has fallen flatter than a pancake.

The New York Times (Sept. 13) admits that the only thing that has improved is business morale, and adds that while "busiess statistics continued to present a confusing picture," "encouraging statements issued by economists and busines leaders," were increasing. The business statistics are not confusing at all to workers, even if thy do confound the bosses who begin to believe their own witchcraft and find facts do not fit in with them.

The basic industries are *dcreasing* production. More workers are being unemployed; more wages are being cut. Proof? There is loads of it, which the capitalist press hides in the corners of its financial pages.

The very same New York Times, (Sept. 13) which oozes with the new optimistic and magical spirit in its cold figures as contained in its weekly business index is forced to concede that *"The weekly index of business activities shows a further slight decline."* What's confusing about this, except to the boss magicians?

Worse still. The latest issue of "Business Week," whose workers all undoubtedly wear buttons with the Hoover lie, "Business is Good," tells us that *'the general business index for the week now ending* (last Saturday) *stands at 83.5 per cent of normal, a new 1930 low, and a decline of 3.3 per cent from last week's figure of 86.8 per cent."*

Instead of an upturn we have a drop to a new low! It takes more than the drowning of effigies to overcome a fundamental, deep-going crisis of the rotten capitalist system, with its 8,000,000 of unemployed.

What about this seasonal pick-up which the New York Times financial writer says came in the fall of the crisis of 1921, though it was followed by a sharper downturn. It's not panning out at all, though it could take place and still not affect the continued deepening of the crisis itself. Again the Times ballyhoo gives way to this admission: "This year's fall pick-up in business lacks vitality." In short, it's weak, anemic, lifeless and means nothing at all to the millions of unemployed, nor will it stop the increase in the unemployed army.

Some Details.

So numerous are the facts of the worsening crisis that we have space for only a few of the more important items. Steel orders have dropped to the lowest point since 1923. Building contracts, according to the F. W. Dodge Corporation, for the first four days of September showed a daily average of $10,960,000, compared to a daily average of $19,650,300, a drop of nearly 50 per cent! And we must remember, too, that in September, 1929, the crisis had already begun.

Bank clearings fell to 38.7 per cent below the level of the corresponding week last year. Ford is curtailing production sharply, and Chevrolet has already cut its low production in half. Business failures continue way above normal.

Some Retail Lies.

Knowing that the basic industries in the fall and winter will cut their production still further, the boss press is yelling about increases in retail trade. What is the truth about this? Sears Roebuck & Co., the largest mail order house in the United States, showed a drop of 14 per cent for the week ended Sept. 10. Sears Roebuck usually keeps up its retail sales when all other retail stores lose business. There's not much backbone to their fairy story about improving retail trade. Starving workers can't buy food, let alone winter overcoats or shoes for their bare and aching feet.

It is evident from these facts that the entire campaign of the boss press is a lot of baloney to fool the workers who have reached starvation level and are girding for a fight to demand unemployment insurance, as well as to organize and strike against wage cuts.

By the A. F. of L. figures we are told that 39 per cent of the building trades workers have been unemployed for the entire year. There won't be any building in winter. These men haven't got any money to live on. The auto workers have been only half employed. The textile mills have been practically shut down for months. The steel workers have been given wage cuts and most of them have worked part time.

When winter comes the tens of thousands of jobless who now sleep in the streets will be faced with the question of protecting themselves from being frozen to death as well as from starving to death. Evictions will mean going out into the snow and ice for the workers' families.

Lies won't feed the unemployed. They are not meant to. The bosses want to raise the workers' hopes to keep them from fighting. But only by organizing and fighting as a class, demanding unemployment insurance, will the workers be able to stave off disas-

STREETCLEANERS TOIL LONG HOURS

Foremen Speed Up the Men; Hard Work

New York City.

Editor Daily Worker:—

I am working for the City of New York in the street cleaning department, and I want to tell you of some of the conditions we have to put up with.

9-Hour Day.

We have to work nine hours a day, seven days a week, and no pay for overtime. We have to make six loads of rubbish a day and sometimes we are working two or three hours a day overtime without time off or overtime. We have foremen who speed us up and who chase from morning until night.

Hard In Winter.

It is not a soft job in the winter time. We have to work in the snow, rain, wind or heat and we are exposed to all kinds of sickness. Sometime ago one of the men fell dead from the heat and he was working overtime when this happened. He was the sole support of his wife and four children.

I will keep you posted on events in this department. I wish you would withhold my name as I would get fired if they found out about this. —SWEEPER.

SPEED UP OTHERS MINERS STARVE;

Big Toll of Workers Accidents Keep On Taking

Westville, Ill.

Daily Worker:—

When I joined the Party I was asked to keep in touch with you and inform you about the workers' activities in this community. I am enclosing a clipping of our "labor day" celebration to give you an idea of what kind of bull was thrown here.

Pass Around "Daily."

I have passed my Daily Worker on to my friends and when they have read it a couple of times I will ask them to subscribe, as I know there is only the truth about labor conditions in it, so whoever reads it soon realizes it's the paper for every worker to have.

2-Day Work Week.

The miners here are working two days a week in the U. S. Steel Co. mines and here of late the one Peabody Coal Co. mine has been working every day since they have installed modern loading machinery and laid off half of the miners.

They force the special speed-up system and work their men under the most hazardous conditions, especially loose roof.

Many Injured.

This company has kept the hospital full of injured miners since their operation by machinery.

The U. S. Steel mines are handloading and every system of safety is practiced, but they expect plenty of work for their money, as do all other greedy corporations.

Lewis Gang Here.

The miners here have not heard anything of the Communist Party and hardly know what it is, does or fights for. The Lewis gang has them in their claws just now.

I will boost our Party and believe others here will join.

—J. F. S.

Sees Finnish Group Lagging Behind

Dairytown, Pa.

Dear Comrade Editor:—

I moved here and was surprised that no words were mentioned about the Mine, Oil and Smelter Workers' Industrial Union in the Finnish working papers.

In this mining town we have a so-called Finnish co-operative hall which could be used for any purpose, but is not used for Communist purposes.

It seems to me that the Finnish fractions are not over their right tendencies, and yet they should be over them by now and getting down to brass tacks.

Any Communist that does not do Party and union work daily is a very poor Communist. —J. J.

Int'l Harvester Lays Off More Men

Moline, Ill.

Daily Worker:

Dear Editor:—I read in the Moline Daily Dispatch the other night that the Rock Island Railroad workers, 1,400 men, will be taken back to work the 15th of this month after a two months' unpaid vacation. But only for ten days will they get work, unless things pick up on the road.

And I heard from someone that the International Harvester Co. in Rock Island have laid off 500 more men—so the capitalist system is the best we can wish for? I think we better orgánize and vote Communist on top of it.

—SYMPATHIZER.

Children of the New Day --A Story of Soviet Youth

A Written Version of the Russian Movie For American Working Class Children

By MYRA PAGE.

(Continued.)

Going home the next day Alex spied Fatima and pointed her out to his companions. She was standing in her old place, near the marble lion, begging. When the Pioneers reacher her side they found a member of the Society for Protection of Children already questioning her.

Vanya took Fatima by the hand. "Hello, Fatima, we've been hoping to find you; won't you come to the playroom's opening | tomorrow?" "And why are you here, begging?" the comrade from the society questioned her gently. Fatima, hanging her head, began to cry. "I didn't want to; my aunt made me."

"Don't cry, Fatima, no one blames you. We're your friends and will help you."

The inspector looked stern, but his voice was kind. "So that's how it is, eh. We'll look into this, right away." Jotting down Fatima's address in his notebook he went off in search of the aunt.

The Playroom Opens.

Early the next morning everything in the courtyard and nearby was in great excitemet. "Get up, get up," the children called. "Today the playroom opens." Doors opened, heads popped out and children came running from everywhere, tumbling down the stairs over one another in their hurry.

Even the cats and dogs came bouncing out to see the fun. This time, Fatima also was on hand.

The Pioneers came marching in, two by two, banners flying and singing their Pioneer march song. The rhildren's committee joined them and the rest fell in behind. In front of the doorway they halted a moment while Nick declared in a clear ringing voice that the playroom was now ready to be opened. This belonged to the children of the Lenin house, for them to prize and use. It was just one sample of the New Day which the Russian revolution was bringing to workers' children throughout the Soviet Union. "And," he ended, "we Pioneers hope that you here will also organize a Pioneer troop." At this the children cheered.

Tash opened the door and all walked in. Each Pioneer wiped his or her feet on the door mat as they entered, but the others, not understanding this ceremony, just walked in with dirt and mud clinging to their bare feet.

"Comrade citizens," said Tash sternly, "your feet." So one by one they carefully wiped the mud on the mat and entered.

What a room it was! Everyone exclaimed at once. Fatima's eyes grew round with wonder. Windows, walls, even the doorknob shone with cleanliness. The walls were tinted a light cream-color, and the small chairs and tables were painted green, to match the curtains at the window. Picture books, crayons and paper, balls, blocks, games and toys were placed around. On the walls were red banners and Lenin's picture. In one corner was a small library, with Tash in charge. The children moved happily about, examining everything, while the Pioneers and committee followed along, explaining and all the while broadly grinning and trying not to look too proud over what they had done. After all their hard work it was good to have the children so pleased.

(to be continued.)

FIND UTW HEADS SOLD TO BUTLER

(Continued From Page 1.)

order, stories of Batty's itching palm, much parliamentary skulduggedy, etc., was that the resolution was lost.

The convention, held in a comfortable bourgeois hotel in New York, far from the gunmen of the Southern mill owners, adopted a plan by which they hope to destroy the workers' organization, the National Textile Workers Union in the Carolinas.

Much of the convention was taken up by the explanations of Emile Rieve, president of the Full Fashioned Hosiery section of the U.T.W., as to how his organization took the lead in cutting the wages of hosiery workers in Pennsylvania.

The fake delegates here were easily satisfied, but the problem is how to present this excuse to the hosiery workers. Mayor Stump, head of the socialist party administration in Reading with about 35 per cent of the hosiery is manufactured, has been secured to address a community mass meeting in Reading and try to put it over. The argument will be that the kages had to be cut in Reading because they are now in the South.

The National Textile Workers Union, on the contrary, has a policy of organizing and striking against wage cuts everywhere, and of raising the southern wage rates.

M'DONALD RULE STARVE JOBLESS

(Continued From Page 1.)

families are in actual starvation. Ramsay MacDonald is vacationing with the King and the Duke of Sutherland in their great castles.

This is the "socialist" party in action! This is how it always acts.

The story of its activities in Germany, and other countries shows a similar future. What the British "socialist" MacDonald is doing, ist" **Norman Thomas would do if** that is what the **American "social-given the power. Have we not, in** fact, already had a taste of **"social-ist" treatment of the unemployed in Reading and Milwaukee,** where their actions in clubbing the demonstrators on March 6th, in evicting unemployed workers, etc., are indistinguishable from the usual brutal treatment of the unemployed in other cities? The promises of the "socialist" party to the unemployed are worth less than the paper they are written on!

Unemployment Solved in the Soviet Union.

of the "socialists" in action on the

Compare this treacherous record question of unemployment with the way the Communists have handled it where they control, in the Soviet Union. **There the problem of unemployment is solved.** The army of the unemployed is practically liquidated, in fact, millions of new industrial workers are being trained to fill the insatiable demands of the flourishing new industries and what fe wthere are out of work consist mostly of peasants freshly from the country, functionaries from the old regime, etc.

Workers, support the Communist Party. Vote its election ticket. Demand the enaction of its Unemployment Bill. Repudiate the treacherous social-fascists.

Bishop Brown's Books

COMMUNISM AND CHRISTIANISM

225th thousand, paper bound, 247 pages; twenty-five cents.

"Like a brilliant meteor crossing a dark sky, it held me tight."

MY HERESY

INTERNATIONAL NEWS

Polish Workers Feel Brunt of Fascist Terror

WARSAW (I.P.S.).—From every part of Poland come news of a systematic campaign of slander against all left elements and Communists, preparing the way for pogroms in West Ukraine, and for unheard of repressive measures. Every railway accident or forest fire is laid at the door of "Ukrainian terrorists and saboteurs."

In Lemberg the police searched the premises of the legal Ukrainian Workers and Peasants' Party "Selrob." Evidence has been found "against" the organization — correspondence with the Red Aid in Berlin and Paris. Preparations are obviously being made to prohibit this mass party of the Ukrainian workers and peasants.

In Warsaw the premises of the House Servants' Union have been searched, 55 members were arrested, the union dissolved by the police. At the same time the police broke up a meeting of the Left Metal Workers' Union and arrested 52 trade union members.

The Seym deputy of the White Russian Workers' and Peasants' Party, Dvorezanik, arrested at a public meeting in the Grodin district, is charged under a paragraph penalizing with four to fifteen years' hard labor. Twenty-one peasants are being charged at the same time. They are all in prison.

In Warsaw the left socialists called a public protest meeting against the execution of the three young workers of Lemberg. The meeting was prohibited by the police and the place where it was to have been held cut off by police cordons.

As reported a few weeks ago, a sensational scene took place in the court of justice at Lodz. A young worker, sentenced for membership of the Y. C. L., shouted, after the sentence was pronounced: "We are beaten in prison." Since then conditions in Lodz prison have not changed. On Aug. 22 three young people were again charged with "anti-state activities." All three shouted in court, first to the judges and then to the public: "We are beaten in prison." On the orders of the presiding judge, the prisoners were taken out of court.

BRITISH MINERS PREPARE FOR STRUGGLE TO INCREASE WAGES

Communist Party and Minority Movement Devote Special Attention to Mine Fields

LONDON (I.P.S.).—By Dec. new wage agreements must be concluded in all the coal districts of England, as the "coal law" comes into force on this date. The tariff negotiations for South Wales began on Sept. 8. The miners demand a wage raise compensating the shorter hours to be worked from Dec. 1 onwards. The mine owners demand a wage-cut in correspondence to the lessened output resulting on the reduction of working hours to 7½.

In South Wales negotiations will be conducted by the South Wales Miners' Union, headed by Tom Richards, president of the English Miners' Union. The South Wales miners' union has been extremely energetic in its activities against the Communists and fights the Minority Movement to the utmost of its power. Last year the Mardy center was expelled from the union for refusing to exclude Communists and for supporting the Communist candidate at the parliamentary election. Last week another center, Tillery, was expelled and the expulsion of others is expected.

Cook and the other leaders make great speeches on the resistance which the union would make against any reduction of wages: "The miners must resist any attempt to reduce wages." But in the same speech Cook shows himself to be the apostle of "industrial peace." The coal mining law . . . "lays down the means and possibilities for a collaboration of the representatives of the mine owners, of the miners, and of the government, and this should be carried on in order to bring peace and a certain degree of prosperity to the industry."

The Communist Party and the Minority Movement, with their campaign for the "labor charta," are devoting special attention to mining, as an attack on the already low standard of living of the miners is on the way.

NORTHWESTERN LAY OFF 3,000 MEN

Refused to Accept a Wage Cut

(Continued From Page 1.)

can Federation of Labor fell into line with the company's plan of dividing work and cutting wages, thus forcing the men to slave at a starvation wage, "left-wing" militants led the fight to compel the company to live up to its agreements.

That the agreements the fakers made with the officials of the North Western road were not worth the paper they were written on is proven by this mass lay-off, which is in direct violation of contracts now in force.

The lay-off also proves the duplicity of the business agents in signing the union-company management cooperation scheme, which through its increased sped-up, has "cooperated" in shoving over three thousands out of their jobs.

No Savings.

The low wages paid both mechanics and helpers have made it impossible for the workers to set aside anything out of their pay for such an emergency as this and it is certain there will be much suffering if the shut-down lasts long. Under the fake five-day week mechanics have ben receiving but thirty dollars per week, while helpers have tried to exist on twenty-two dollars. Laborers, unorganized, are paid fifteen dollars per week.

Open revolt against the double-dealing business agents and their A. F. of L. fascist unions has broken out among the workers and even some of those who formerly shouted their devotion to the "Fakeration" are deserting its banners. The National Railroad Industrial League and the National Unemployed Councils are concentrating on winning over the discontented workers for a united struggle against the bosses.

Open Air Meets.

Open-air meetings on the day the shut-down goes into effect are planned for three of the main gates leading into the shops at which prominent speakers will address the workers. Leaflets are to be distributed daily calling upon the unemployed to fight against lay-offs and wage-cuts and against the speed-up system. The Daily Worker and Labor Unity are to be sold and distributed at the open-air demonstration Wednesday, September 17th.

Rally to Struggle.

The National Railroad Industrial League is rallying the workers for a struggle to obtain the five-day week, six-hour day with a substantial increase in pay for all employees. The company wil also be met with a demand to compensate every worker it lays off, such compensation to be not less than twenty-five dollars per week. The management, it is pointed out, increased its earnings in 1929 by twenty-five million dollars over the previous year, 1928, and wil be asked to use this gigantic sum to pay unemployment compensation when the shut-down takes place.

What Has Millionaire Hilquit to Do With Socialism?

By I. AMTER.
Prisoner No. 52350.
(Communist Candidate, 23rd Congressional District, Bronx.)

ABE CAHAN, editor of the vicious anti-working class paper, the Jewish "Forward," says that "Marx is obsolete"—out of date—and that he (Cahan) has "progressed with the times." Norman Thomas, liberal candidate of the "socialist" party, in a letter to the Telegram openly disavowed himself of Marxism and a year or so ago vigirously advocated the change of the name of the party to conform more to the ideas of Cahan.

Hillquit Wields the Baton.

Morris Hillquit, millionaire lawyer and "eminent Marxian," is the theorist of this capitalist party, and as such was chosen to deliver the keynote speech at the N. Y. state convention of the "socialist" party. His speech showed well that the question is justified: What has Hillquit to do with Marxism—what has the "socialist" party to do with Marxism?

The worker is not interested in scientific names—he is interested in the methods that will lead to his liberation from the system of exploitation, unemployment, low wages, murderous speed-up, imperialist war. Marxism is the science that analyzes capitalist society, establishes the principle of the class struggle—the struggle of the working class against the capitalist class—the necessity of overthrowing capitalism and of establishing the proletarian (working - class) dictatorship. Marxism establishes the economic basis and also the political principles out of which are developed policies, strategy and tactics leading to the revolutionary goal.

The "People's" Candidates.

The working class and the capitalist class have nothing in common. Their interests are opposed to each other. A political party represents the interests of one or the other class and to pretend that it can represent both classes or the "people" generally is to lie. It is an attempt to hide the class struggle and to make the workers believe that their interests can be represented and promoted by a party of the "people." This is the claim alike of the republican, of the democratic, of the "socialist" party. This means that they all represent the interest of the dominant class—the capitalists, despite their phraseology. The national "socialist" party of Germany is an extreme fascist party having the aim to establish a fascist dictatorship, yet its platform contains "radical" working class "demands." The American "socialist" party parades "working class demands," but we shall see what relation they bear to Marxism, the science of the proletarian revolution, when millionaire "Marxian" Hillquit, member of the executive committee of the "Socialist" International, expounded them in his keynote speech at Schenectady.

"Democracy," Constitutional "Guarantees."

Finally, capitalist government is supposed to be "democratic," that is the so-called "rights of the people" are alleged to be "guaranteed by the constitution" and "cannot be violated." Marxism poses the proletarian dictatorship against the capitalist dictatorship which is in force today. This capitalist dictatorship uses "democracy" at a time when capitalist production needs an awakened working class to do the work, that is, when there is greater need of skilled labor. With the passing away of this need, owing to the introduction of the automatic machine, division of labor, speed-up, etc., the skilled workers no longer play their former important role in production and masses of unskilled and semi-skilled workers take their place. This development is part of the system which also brings about mass unemployment, low wages, speed-up, imperialist war, etc., against which the workers fight.

Then "democracy", with its "guaranteed rights" disappears, and the capitalist dictatorship shows itself in its **real form—open, organized state violence,** which in our day takes the form of a fascist dictatorship. Every capitalist country of the world today is either a fascist dictatorship or is rapidly developing in that direction—this including the United States, signs being manifested on all sides.

Hush! Hillquit Speaking!

What has Hillquit to do with this Marxian analysis? Or, what has the preacher, Norman Thomas, the standard bearer of the "socialist" party, or the whole "socialist" party to do with it?

Let millionaire Hillquit, the "Marxian," speak! He spoke at Schenectady about the "economic crisis which faces the people of America," and was worried because "paper millionaires of yesterday have become paupers today. The smaller concerns are fast drifting into bankruptcy." **It should worry the workers a lot that millionaires and smaller concerns are going bankrupt**—but Hillquit sheds tears because a section of the capitalist class suffers from the crisis! The Marxian says that the worker and capitalist have nothing in common and that their interests are antagonistic. Therefore "the people" of which Hillquit speaks is the capitalist class still dominating the workers.

The "Cause" For Unemployment.

What is the cause of the economic crisis, which extends throughout the world? Even conservative bourgeois economists admit today that it is overproduction—too much production, which finds no markets. According to Hillquit, it is an act of individual capitalists or groups of them. He speaks of the "wheels of industry being arbitrarily stopped." Hillquit is intimately connected with Burns Bros., coal dealers, and the office clerk could readily tell him what is the matter. The matter is markets which cannot keep up with production, this taking on an international scope, and being combined with a world agricultural crisis and meeting with a general decline of capitalism in certain countries produces an economic crisis of the most serious nature.

Does Hillquit see that this is inevitable under the capitalist system, and not the result of the "arbitrariness" of capitalism? He does not—he is only worried about his millionaires being reduced to paupers!

Hillquit also bemoans the fact that "our government under republican and democratic administrations alike, has utterly failed!" Has it failed for the capitalists, whom he calls the "public"—and we call the "64"? Hardly, for both republicans and democrats serve their masters well—but not the workers and poor farmers. Look at the profits and dividends of 1929—could the millionaires (including Hillquit) want anything better than what they had last year? But now they have failed, says Hillquit, and therefore the "socialists" must show them—not the bankruptcy of their system and the misery it entails for the workers—no, the "socialists" must show the capitalists how to save themselves!

Capitalist administrations have scandals—New York City, Albany, etc. Put a "socialist" on the investigating committee, says Hillquit, "to ensure an honest and constructive investigation, and it might incidentally throw some light on the rumored bi-partisan combines of corrupt republican and democratic politicians"! The "socialists" wish to be in on the investigations to give the rabbinical and ministerial approval—and to demonstrate that corruption is not a bi-partisan but tri-partisan affair. The "socialists" want the workers to forget the Barnat scandal in Germany, in which the Barnat Bank of Holland was proved to be financing the social-democratic party of Germany and getting commercial orders wherever the social-democrats would favor them. We don't forget Ramsay MacDonald receiving a gift of an expensive automobile and immediately making the donor of it a baronet.

"Socialist" Graft.

No, we don't forget such things, millionaire Hillquit—and we have plenty of cases of "socialist" trade union leaders receiving the same graft from bosses. You cannot serve two classes at once—you represent either the workers or the capitalists. The "socialists" want to be stamped and accepted as what they are—the third party of capitalism! And to chide the "clean" and "progressive" Roosevelt and deplore that "his political failure has been all the more tragic," is openly to express his agreement with and support of capitalism, and to try to reconcile the workers to their lot under capitalism. Hillquit wishes to assist capitalism in a manner **more in keeping with the present needs of capitalist parties that have to deal with dissatisfied, oppressed workers who are beginning to rebel against the system.** Therefore, he speaks of the "backwardness of the old parties"! The "socialists" wish to show them the **new way.**

Hillquit Explaining Communism.

Finally, Hillquit deplores the Fish investigation of the Communists, not because he sees in the Communists fighting revolutionary workers organizing for the overthrow of capitalism, but because **it is strengthening** the Communist Party. Do you wish to "check the alarming Communist danger"? asks Hillquit. Then "curb police brutalities and judicial vindictiveness." We, as Marxians, understood that economic and political conditions lead to revolution. Hillquit tells us that the policeman's club, one of the capitalist weapons to protect itself, is the basis of the growth of the Communist movement. This is Hillquit's Marxism! This is "socialist" International stuff—the International that is doing everything in its power to save capitalism, the system that is crushing the workers and poor farmers.

The workers want liberation from the capitalist system. This can come only through struggle against capitalism and its three parties—republican, democratic and "socialist."

Does any worker doubt that the "socialist" party is a pro-capitalist party? Then let him look at the praise of Norman Thomas and the "socialist" party when he was nominated for Congress, bestowed upon them by the Times, Tribune, World and Telegram and see the reprint in the New York Leader, "socialist" party organ. Or see the space that the Times and Telegram give the third party every day. "Thoroughly respectable," they say. Quite correct—and thoroughly reliable for capitalism!

Workers, support the Communist program of struggle for immediate needs and for the final goal!

Support the Communist Party program and candidates in the election!

(Written at Hart's Island Penitentiary.)

THE SWORD DANCE

BY BURCK

A Defeat Which Must Serve as an Alarm

By HERBERT BENJAMIN.

The Party forces in District Six have been unable to overcome the obstacles which the ruling class has set up in order to prevent the Party of the working class from appearing on the ballot. The Van Sweringen, Fisher Bros., and the rest of the multi-milionaires of Ohio, have gone beyond even their co-rulers in other states in their laws to maintain complete control and monopoly of all the apparatus of the state. Thirty thousand signatures are required from at least 30 of the 88 counties in order that workingclass candidates may appear on the ballot.

In addition to the rigorous requirements provided by the laws which they have enacted the bourgeoisie resorts to a greater extent to extra legal use of its state apparatus in order to accomplish its aims. Workers soliciting signatures are arrested, the petitions on their persons are confiscated as evidence, and they are driven out of town or jailed. This occurred in practically every city in the state. In Newark, our candidate for governor, Comrade I. O. Ford was twice arrested. In Dayton, three comrades are still serving sixty day jail sentences and others are awaiting trial after benig held for days on excessive bail. The purpose of these arrests is frankly revealed by the prosecutor in Dayton, who offers to drop the cases if the comrades will promise to leave town. In the steel centers of the Mahoning Valley, in the coal regions of Eastern Ohio, in Akron, the Rubber City, in all the industrial towns of the state, similar methods were adopted by the official agents of the bosses.

The Communist Party will demand a place on the ballot on the basis of the fact that any failure to meet the stringent requirements of the bosses' dictatorship that the authorities may charge us with is due to the measures taken by these very state authorities to defeat our efforts to place spokesmen of our class on the ballot. We charge the state authorities with direct responsibility, and will mobilize the workers for a fight to compel them, to set aside their technical excuses for eliminating our candidates.

But for the membership of the Party everywhere and particularly in District Six, it is necessary to learn the lessons from our serious failure. It is necessary to establish that at a time when the masses of workers are rallying in ever larger numbers around the Party, when hundreds of thousands of them are recognizing the need for militant struggle against the policies of the bourgeoisie and against the rule of the bosses, we were unable to develop the necessary power to defeat and overcome the measures and obstacles of the ruling class.

This must serve as a warning to, must serve to alarm the entire Party. Unless we quickly overcome the weaknesses which were responsible for this defeat we stand in danger of suffering further and greater defeats.

Ninety per cent of the signatures secured in Ohio were secured during the last three weeks of the campaign. But this final spurt could not undo the effects of the dilatory methods that marked our campaign up to then. On the contrary, even our final spurt could not develop the necessary tempo because of the lethargy which resulted from the earlier neglect and irresponsibility. We must learn that to wait till a few days before an event rather than conduct intensive preparatory work from the very outset of a campaign is to invite serious defeats.

Failure to Apply Correct United Front Tactics.

The failure to involve the non-Party as well as Party members in our campaign for signatures as in the election campaign generally, is a result of our incorrect application of the correct policy of the Party for the United Front from below. The tendency in practice to limit our united front to the organizations immediately around the Party and to fail to even win these for our campaigns, results in narrow conferences, made up of delegates who are merely present but are not required to serve as means of contact with and leaders of the membership of the organizations they represent. Both the Party and non-Party organizations look upon the conferences as end in themselves and as something to be disposed of and forgotten as soon as possible. To get them over with ,so that they can proceed to "real" work.

As for shop-committees, the basic form of our united front from below, these have been simply something we speak of having failed to establish, after a certain culminating point of a campaign has been reached! The building of shop committees still remains something to be done by an abstraction—"the Party." The units of the Party and the individual comrades who work in shops have not yet been convinced that building shop committees, estaablishing the united front from below must be undertaken under the leadership of the Central and district committees of the Party by the lower units of the Party, the shop and street nuclei and the individual members working in the shops.

Thus the vast reservoir of radicalized masses were not drawn into our campaign up to now. Our campaign has not served to advance these workers towards organized action.

Political Underestimation and Organizational Looseness.

Along with these basic political errors, many instances of criminal neglect can be recorded. Thus, the petitions for Cuyahoga County (Cleveland) were not issled until after the first week of August because "the district did not have the money to print these." Although this delayed the collection of signatures for the state petitions as well, the district failed to bestir itself in order to raise the less than $30 required!

Perspective for Our Election Campaign and Further Tasks.

Despite the possibility that we will be ruled off the ballot on the basis of the technical grounds provided by the bosses' laws, the Party must and will conduct an intensive election campaign in Ohio. We must develop the struggle to compel the bourgeois state authorities to permit our candidates to go on the ballot. We must insist that the workers be given an opportunity for supporting our platform of class struggle in the elections next November. At the same time we must develop a mass campaign in support of the local and congressional candidates that have secured a place on the ballot in Cuyahoga (Cleveland) County and other counties of the state.

Broaden the Base by Planned Work.

The state conference "for repeal of the criminal syndicalist law, against persecution of foreign born workers, against lynching, Jim Crowism and segregation of Negro workers" will serve as the first step in broadening the base of our struggle. The local conferences on these issues will provide broad united front campaign committees in every city of the district. The local conferences under auspices of the T.U.U.L. and Unemployed Councils for the Workers Social Insurance Bill and energetic support for the Organize and Strike Fund of the T.U.U.L. will serve further to provide organization for the mass struggles that must be expected and developed as the capitalist crisis deepens and the conditions of the working clas become more desperate.

Winter is coming. More unemployment. Bread lines. Evictions. The Communist Party alone is mobilizing the unemployed and employed workers in a fight against speed-up, ployment insurance relief. Vote Communist! wage cuts and evictions, in a fight for unem-

ON TO A MASS T.U.U.L. DISTRICT CONFERENCE IN PHILA.

By BILL LAWRENCE.

IT is an indesputable fact that the coming winter we will face a number of fierce class battles. The increasing unemployment, the numerous wage cuts which lead towards the further radicalization of the American workers, and the growing discontent of the workers with the A. F. of L. leadership, which is trying to enforce wage cuts agreements on the workers, is the best proof of that.

The Philadelphia District, which includes such important industrial centers as Kensington (textiles), Bethlehem and Sparrows Point (steel), Baltimore and Philadelphia (waterfront), Wilmington (chemicals), Anthracite (hard coal), will certainly play an important role in these coming struggles.

In some of these industries the workers have gone through two or three wage cuts for the last several weeks, and the bosses with the conscious help and approval of the A. F. of L. officials, are trying to enslave more these workers, and completely shift the burden of the crisis on the shoulders of these workers through their famous wage cut agreements.

Militancy Grows.

During the month of September a number of agreements expired. The Marine industry is one of those. The conditions and sentiment of the longshoremen on the Philadelphia waterfront is such that it may break out in an open revolt against the stevedores and their agents the I.L.A. at any moment. The thousands of unorganized longshoremen work under inhuman conditions and low pay. Those "organized" in the I.L.A. are not any better off. The I.L.A. with its chief henchman, Polly Baker, is aware of the sentiment on the Philadelphia waterfront. Baker knows that the I.L.A. is completely ex-posed and discredited. He knows that the longshoremen will not accept any wage cut agreements, and are disgusted with his outfit. Thus he is looking for other means how to sell out these workers to the stevedores. On the other hand, the Marine Workers Industrial Union is becoming more and more effective on the Philadelphia waterfront. The organized and unorganized longshoremen are looking upon the M.W.I.U. as the real leader on the waterfront. True enough, some of them are still scared because of the terror launched by the I.L.A. Some of them are yet afraid to throw away the I.L.A. button, but the fact is that the militancy of these workers is growing daily. They are more and more responding to the call of the M.W.I.U., and when the proper time comes, they will openly revolt against these miserable conditions and the I.L.A. The I.L.A. knows this and is already trying (though hopelessly) to prevent the revolt by delivering these longshoremen to stevedores through the I.W.W.

Delivering the Goods.

The I.W.W., who went dead for the last few years on the Philadelphia waterfront, suddenly "revived" and have undertaken the duty of delivering the goods to the bosses. It is characteristic of the degeneration of the I.W.W., that while in their leaflets they "attack" the I.L.A., Ben Bletcher, an I.W.W. organizer is writing the leaflets for the I.L.A. attacking our union. It is clear that both the I.L.A. and the I.W.W. are working hand in hand to betray and sell out the longshoremen.

The longshoremen are aware of this through the numerous leaflets issued by our union, and in the near future we may see some real battles on the Philadelphia waterfront.

Another important industry where the misleaders are trying to enforce a wage cut agreement is the textile industry. Here we find unemployment has reached its highest stage. The biggest mill in Kensington, the Hancock is completely shut off for the last couple of weeks. The Aberle mill (the mill that was recently on strike, and a striker killed), only recently reopened with part time work. Same is true of the U. S. Hosiery Mill and many others. Here, too, the conditions of those employed (not speaking of the unemployed) are pretty rotten.

The recent agreement between the textile barons and the social-fascists of the Full Fashioned Hosiery Workers provides a wage cut of 22 per cent. In spite of the terror of the officials, and the packing of the meeting with loyal people, 254 workers voted against the agreement, with 316 for. At the meeting the workers of the Hancock and U. S. hosiery mills demanded the rejection of this agreement, and after the vote definitely stated that they were not going to pay dues to the company union.

The workers of other textile factories are similarly aroused by the new sell-out of the social-fascists and with the increased activities of the National Textile Workers Union in Kensington we may look out for very serious developments and class struggles in this section in the near future.

The latest developments in the Philadelphia men's clothing industry point towards very important struggles. The workers will recall the alarm Hillman, the bosses of the Amalgamated and his gang made throughout the country about his infamous "organization drive" in Philadelphia. Instead of organizing the workers, these fakers of the A.C.W.A. spent thousands of dollars giving parties for the bosses, called faked stoppages which resulted in the check-off system, and today the workers in the men's clothing industry of Philadelphia are being discriminated, work without any protection of the company union, and are undergoing one wage cut after another.

Conditions reached such a state that a former hundred per cent supporter of the Hillman machine refused to take a wage cut, he went to the A. C. W. of A. for protection, and when these bureaucrats refused to do anything for him, he went back to the boss and at the moment of desperation and under the pressure of economic conditions shot at the boss.

In another men's clothing shop the workers went through two wage cuts for the last few weeks, and when a third one was introduced last week the chairman of the shop announced that they were through with the company union, they were not going to pay any more dues and brought some of the workers to the Needle Trades Workers Industrial Union. The workers in the men's clothing industry absolutely refused to be subjected any longer to the Hillman machine and if the proper methods pursued by utilizing the discontent of these workers, through the organization of shop committees and minority groups, through mobilizing these workers behind the class struggle program of the T.U.U.L., the N.T.W.I.U. will be able to develop a general struggle of the men's clothing workers against the betrayers and for better conditions.

Needless to speak about the numerous wage cuts in the metal industry. The recent department strike at Sparrows Point is proof of the growing militancy of the metal workers and their readiness to fight for better conditions.

Certainly the miners in the soft coal fields are not going to submit to the new betrayals of the Lewis outfit, and with the correct program and proper leadership provided by the Oil, Mine and Smelters Union, will fight the new wage cut agreement.

The T.U.U.L. must utilize the present situation by mobilizing the entire working class for the bettering of the conditions of the workers, and the building of the revolutionary unions with the T.U.U.L. as the center.

Big Tasks.

The campaign for $100,000 strike and organize fund, and the district conference of the T.U.U.L. to be held September 27 and 28 must serve the above purposes. Both the raising of the fund and the preparations for the district conference must go hand in hand. The raising of the fund and the preparations for the district conference must be utilized for the:

(1) Consolidation and strengthening of the already existing shop committees, groups and unions;

(2) For the branching out in new unorganized industries;

(3) For the securing of new connections in important basic shops.

(4) For increased activity and stablilization of strong groups within the A. F. of L.

(5) For the popularization of the Labor Unity as the organ of the T.U.U.L.

(6) For the mobilization and preparation of the entire working class of this district for the coming struggles.

Careful Planning.

The district conference must not bee a record conference. It must be a result of a careful systematic plan of work, through day in and day out work in front of factories, through mingling with the workers, through visiting and following up of connections, factory gate meetings, factory leaflets based on concrete conditions and above all the T.U.U.L. must be alert to every problem that arises in various shops and mills.

Organize and Strike Against Wage Cuts!

(Statement by the National Committee of the Trade Union Unity League.

THE Paterson, N. J. local of the National Textile Workers Union, affiliated to the Trade Union Unity League, led a successful strike in the Columbia silk mill and forced the bosses to grant a 20 per cent wage increase and the eight-hour day. All strikers, at the meeting before going back to work, joined the National Textile Workers Union in a body and accepted the program of struggle based upon shop organization of our National Textile Workers Union.

Not less than fifty direct wage cuts were reported to the national office of the T.U.U.L. during the last week. There is no doubt that many more took place of which the national office of the T.U.U.L. lacks information. All this goes to show the correct analysis of the National T.U.U.L. Bureau at its last National Executive Board meeting in which the center of our perspective calls for "Organize and Strike Against Wage Cuts."

Strikes like the one in Paterson, N. J. are taking place daily throughout the length and bredth of the country. Especially do we notice a militant upsurge amongst the textile workers in the South. In the mining industry, in the metal industry, marine industry, etc. we find these workers are ever more developing a militancy against the increased system of wage cuts. The victorious Paterson strike, led by our National Textile Workers Union, must serve as a concrete example of how to take organizational advantage of the increased possibilities which are developing among the masses of workers for revolutionary trade union organization under the leadership of the T.U.U.L. and its affiliated national unions and national leagues. We also notice at the present time a developing dissatisfaction among the oil workers against the policy of wage cuts in the oil industry.

The National T.U.U.L. Bureau calls to the attention of all of our affiliated national unions and national leagues, as well as all of the districts and locals of the Trade Union Unity League, of the serious situation and the increased favorable conditions which are developing in the every day class struggle. General agitation, general distribution of leaflets and literature, as well as occasional mass meetings, are by far not sufficient. The immediate task must be increased shop activity such as the building up of concentration committees, that is, committees of action, especially in those shops and factories where the wages are being cut. Organize and strike against Wage cuts means the immediate preparation of actually leading the workers into strikes on the basis of organizing shop committees and broad rank and file strike committees composed of T.U.U.L. members, unorganized workers and rank and file members of the A. F. of L.

In Paterson our union was not only able to stop the wage cuts and the speed-up, but through proper organization the bosses were compelled to give an increase in wages and to establish the eight-hour day.

In Minnesota the Trade Union Unity League is leading a strike under its own leadership and by its independent initiative.

The reports of wage cuts sent into the national office, many of which were sent by workers actually working in the shop, called for leadership and organization by the revolutionary unions.

The success of the textile workers in Paterson is a result of genuine shop organization, based upon struggle, skillfully applied by our responsible comrades in the textile workers union. The T.U.U.L. Bureau greets these workers who joined into our union and calls upon our affiliated organizations to take an example from our National Textile Workers Union local in Paterson.

The campaign to build the "Organize and Strike" fund has only one base for its success and that is to actually carry out our central slogan "Organize and Strike Against Wage Cuts" and on the basis of the preparation for strikes we will succeed in the building up of the "Organide and Strike" fund of $100,000.
